Requirements for the Installation of Electric Vehicle Charging Points

EAL Level 3 Award

Why this course would benefit an employer?

This award gives the learner an understanding of the application of the IET Code of Practice for Electric Vehicle Charging Equipment Installation. It provides a facility for individuals working in the electrotechnical sector to develop their understanding of the installation of electric vehicle (EV).

The course provides detailed guidance and recommendations on all aspects of the installation of Electric Vehicle Charging Equipment from the origin of the electrical supply, through distribution and final circuits, installation of the charging equipment itself to the cable between the charging equipment and vehicle's electrical inlet. Also included are related issues of site layout and planning and subsequent inspection, testing, certification and maintenance of installations.

FREE
to businesses across
**Chesterfield and
North East Derbyshire**

The entry requirements for the course are:

- Learners must be at least 18 years old, and must be competent in working on Electrical Installations which is shown by having 18th Edition and Inspection and Testing or one of the qualifications listed below, with the relevant AM test (e.g. AM2/S/E/D):
- Level 3 NVQ Diploma in Installing Electrotechnical Systems and Equipment (Buildings, Structures and the Environment)
- Level 3 NVQ Diploma in Electrotechnical Services (Electrical Maintenance)
- Level 3 Electrotechnical Qualification
- Level 3 in Electrotechnical Services Experienced Worker
- Level 3 NVQ in Electrotechnical Services - Electrical Installation (Building and Structures)
