9am-4pm

## Install Internal Wall Insulation

NOCN

### Why this course would benefit an employer?

The aim of this unit is to provide your employees with the skills required in order to install placed, mechanically and adhesively fixed internal wall insulation while adopting safe, healthy and environmentally responsible work practices.

**FREE**  
to construction/  
construction supply  
chain businesses  
across Chesterfield  
and North East  
Derbyshire

### Modules on the course:

- Be able to interpret the information required in order to be able to install internal wall insulation.
- Be able to identify tools, equipment and materials required to install internal wall insulation.
- Be able to prepare work areas and materials in order to install internal wall insulation.
- Be able to carry out the installation of internal wall insulation.
- Be able to complete works following installing internal wall insulation.

These units are designed for employees with some experience within the construction/construction supply chain sectors who are looking to gain knowledge and skills in the field of insulation and its current sustainable practices.

Assessment of this unit will be through the completion of a devised practical and associated knowledge questions devised by the awarding organisation (written or verbal).

All of the units are designed to assist with upskilling the workforce to meet the challenges of sustainability and the drive towards NetZero.
