Preparing Electric/Hybrid Vehicles for Repair

Level 2 Award

Why this course would benefit an employer?

This course is designed for those people who may encounter electric/hybrid vehicles within an operational environment. It also contains the knowledge and skills required to work safely around a vehicle that may have had damage to its high energy/electrical system.

This Award-sized qualification offers an introduction to this specialised industry sector which, in addition to complimenting their current industry qualifications and experience, will enable them to continue to work safely within their role. These roles can include but are not exclusive to:

- Vehicle maintenance and repair technicians
- Vehicle damage repair technicians

Individuals interested in taking this course will need to possess appropriate vehicle maintenance and repair knowledge and skills at Level 2.

FREE**to businesses across
Chesterfield and
North East Derbyshire**

Modules on the course:

The content of this qualification has been designed to give learners the knowledge and skills required to work safely on electric/hybrid vehicles whilst carrying out operational and repair activities (not voltage components or systems). This may include vehicles that may have or had damage to their high energy electrical system.

It contains one mandatory unit covering knowledge and skills in:

- Electric/hybrid vehicle system components and operation
Hazards surrounding electric/hybrid vehicles
- Reducing the risks to yourself and others when working on electric/hybrid vehicles
- Making a electric/hybrid vehicle high energy system "safe" to work on
Reinstating a electric/hybrid vehicle high energy system

As a result your employees will...

Once learners have achieved this qualification they can progress to further study or manufacturer training on electric/hybrid vehicle diagnosis and repair.

This qualification is an official entry route into our TechSafe™ recognition, which will allow you to gain your place on our Professional Register and show the automotive community and wider that you are competent in your role, and are up to date with the latest of technology and knowledge.
