

Art and Design

As an art and design student you'll have the opportunity to let your creative flair run wild.

We'll support and encourage you to try different mediums and techniques to allow you to work out which creative pathway is for you.

Will it be graphic design, illustration, ceramics, fine art, fashion or something else that you see your future in?

We'll give you the chance to try a wide range and then specialise in what you connect with.

Throughout the year we also take in many live projects with employers and charity partners and take in a wide variety of trips to further inspire your creativity.

Why not follow us on Instagram to see what we're up to?

@artanddesignchesterfield

Did you know?

Last year the Creative teams hosted their summer exhibition, attracting hundreds and selling student work.
