

## Music

**Option 1: Studying to perform, record, mix and produce music is closer than you'd imagine.**

**Option 2: You are the next generation music community.**

Within an industry standard recording facility equipped with the latest recording hardware and software, we're aiming to be the centre of Chesterfield's growing music scene.

All of our music courses offer a range of activities essential to the development and delivery of music performance and production such as writing, recording, using critical listening skills, rehearsing and embedding music technology into music performance and production activities.

We offer links with employers in the industry to help with work experience, industry placements and to set the scene of the huge amount

of career possibilities in this creative industry.

Regular guest speakers from industry, for example Atlanta Cobb, who has managed chart-topping vocalists Ella Henderson, and Kurt Martinez, Head Dolby ATMOS engineer at Dean Street Studio provides priceless insight into job opportunities in the industry and how best to get to where you want to be.

### Did you know?

We have an industry standard studio, Infirmary Records, with high-quality facilities and equipment.
