

Sport

Our sports courses have been designed to give you the skills that employers demand, such as team work, time management, leadership and communication.

You'll have the opportunity to develop transferable skills for employment and further study in whichever sporting career you choose.

As a Chesterfield College sport student you'll also have access to our superb leisure facility at Queen's Park.

With an eight-lane swimming pool, 80-station gym, squash courts and a freedom climbing wall, you'll have plenty of opportunities to work on your practical skills as well as your coaching and development techniques.

Did you know?

You'll have the opportunity to experience a range of sports at college whilst studying the course and in addition be able to join enrichment clubs.
