

AS Biology Bridging Work 2025

TASK FOR SUBMISSION IN YOUR FIRST LESSON or SEND TO jonesc@chesterfield.ac.uk

TASK

Identify an area of Biology you are fascinated by or have a personal interest in. Write no less than 500 words on this subject.

You should reference information from at least two sources (websites are fine – name the book or website) that support and expand on your topic.

Make it interesting, write clearly and informatively, do not simply dump information.

Your work should clearly show why you find your topic so interesting.

Regards

Chris Jones
Biology Lecturer
