Automotive

Keeping Britain moving is a vital part of our future, to prepare for a career in the industry join one of our courses.

Did you know?

We have vehicles that are both electric and hydrogen powered, preparing students for the future industry.

Vehicle Technology encompasses everything at a function/mechanics level with a car.

Courses at all levels give you hands-on, practical experience working with the latest vehicle technology, which is invaluable when entering full-time employment.

At Chesterfield College, we benefit from strong links with a number of employers in the vehicle automotive sector, meaning we know the skills they are looking for.
