

Digital Technologies

Step into one of the UK's most dynamic industries with our range of practical, career-focused computing and digital technology courses. Whether you're starting out or advancing your technical skills, Chesterfield College gives you the tools, experience and confidence to succeed.

Did you know?

Our digital labs include real network servers and cloud environments used for hands-on technical training.

Our courses are taught by experienced industry professionals and take place in modern, well-equipped digital labs with high-spec PCs, enterprise-level servers, and networking equipment—the same kind of systems used by leading tech companies.
