Health and Social Care

Our courses give you the opportunity to explore a diverse range of health and social care fields, while equipping you with the essential knowledge and practical skills needed to thrive in the industry.

We have strong links with employers in the area, including Chesterfield Royal Hospital, local care homes, and day centres, allowing you to undertake work placements that help you build your employability skills in your chosen area.

These real-world experiences ensure that you're not only learning in the classroom but also applying your knowledge in practical settings.

Studying health and social care at Chesterfield College offers you personalised support from experienced professionals, ensuring you receive guidance tailored to your individual needs. You'll have access to cutting-edge, industry-standard equipment

and technology, bringing your learning to life through hands-on experience.

You will be supported to progress into a range of roles such as healthcare assistant and support worker, while also receiving the support needed to move into higher education for specialised fields like social work, occupational therapy, nursing, and midwifery.

All our courses provide you with the opportunity to gain relevant work placements and inspire you to make a meaningful difference to the lives of others.

Did you know?

Students have access to a well equipped mock hospital ward, where they can develop and refine their practical skills in a realistic healthcare environment.

Health and
Social Care

Level 2

Health and
Social Care

I wanted to be a nurse since I was little. My cousin also inspired me as she did the course and told me that she had an amazing experience. She's now doing Radiography, so she's got quite far in her career with it. I enjoyed the placement that I did on the course which I found interesting.
