

Photography

As a photography student you will have access to superb facilities in our studios, darkroom and Mac suites.

Whether you're editing images on our post-production software or getting your hands on our camera equipment, as a photography student, you'll have the opportunity to explore a broad range of photographic techniques and processes and establish your own sense of creative style.

Incorporating both traditional and new technologies, our courses develop key creative skills through hands-on practice.

You will have the opportunity to undertake live briefs set by professionals, giving you real world industry experience.

At Chesterfield College, you will have access to our extensive facilities and will use these to produce high-quality portfolios, respond to briefs and display your finished pieces, allowing you to step into the world of photography with an overarching understanding of the industry.

Did you know?

We are equipped with a professional studio, dark room and high end equipment for students to access anytime within college opening hours.
